(Yvonne Devaney)

I'm the one you can turn to
The one who really loves you
If he should ever hurt you
And break your heart in two.

Your goodbye was the ending
Of a world I once knew
But if you should ever need my love
I'll be waiting here for you.

I'm the one you can turn to
The one who really loves you
If he should ever hurt you
And break your heart in two.

Though you say your love is over
You're still in my heart today
And I wish you every happiness
But with words of love I say.

I'm the one you can turn to
The one who really loves you
If he should ever hurt you
And break your heart in two...
