(Orville Couch - Eddie McDuff)

I'm walking down the same old street I've walked a  
hundred times  
Could it be I've got Kathy on my mind  
I pass the house where she ought to be but I know she's  
not inside  
Could it be I've got Kathy on my mind.

Kathy who in the world took her from me  
Why in the world can't she love me  
And where in the world is Kathy tonight  
So I'll make the block just one more time wonder what  
I'll find  
Could it be I've got Kathy on my mind?

--- Instrumental ---

So I'll make the block just one more time wonder what  
I'll find  
Could it be I've got Kathy on my mind?...
