One heart is beatin' the other one's cheatin'
That's the way it always seems to be

In one heart there's romance
The other there is no chance
Two hearts can't be in love and disagree
I gave my heart while you played around

My love you desired
Till another heart you've found
Now one heart is beatin' the other one's cheatin'
You can't have a cheatin' heart and win

One heart is beatin' the other one's cheatin'
That's the way it always seems to be
