Yonder comes Willie the weeper saddest looking sight
in all the town

Had a new love but couldn't keep her now Willie's
crying heart is broken down

You should have seen the smiling face that Willie wore
The day he found the thrill of her embrace
For the first time in his whole life Willie fell in love
But I took the smile right off of Willie's face took his
place

Yonder comes Willie the weeper...

I put on the smiling face that Willie wore and took her
round for everyone to see
But she found someone else that she wanted more
Now Willis's smiling face laughs back at me look and
see

I'm just like Willie the weeper saddest looking sight in
all the town

Had a new love but couldn't keep her now mine and
Willie's hearts are broken down
