Have you ever thought  
Your little girl glamour shots  
And the events of that whole day spent at the mall

Is maybe a part of you  
You didn't know you were clinging to?  
As if that's where the secret had taken its hold most  
of all  
Like a feather that finds its invisible path as it falls

Just beneath the surface  
There's another one of me  
At the root of all my trouble  
In the twitch before I speak  
With thoughts and revelations  
Even I could not accept  
So just beneath the surface  
Is where he will stay kept

When you talk about me  
Do you stick to the memories?  
Or was I just another victim of the case?

The one that went cold on you  
The way it was meant to do  
For any detective that hasn't accepted his place  
And still wanders the city in hopes of it showing its  
face

Just beneath the surface  
There's another one of me  
At the root of all my trouble  
In the twitch before I speak  
With thoughts and revelations  
Even I could not accept  
So just beneath the surface  
Is where he will stay kept

Between the thoughtless words and the wordless  
thoughts  
Between the plotless fears and the fearless plots

Between the parts of me I keep from you and the things  
that Iâ€™m just not  
The center keeps on drifting  
The music never stops

Just beneath the surface  
Thereâ€™s another one of me  
At the root of all my trouble  
In the twitch before I speak  
With thoughts and revelations  
Even I could not accept  
So just beneath the surface  
Is where he will stay kept
