I am just reaching and I want to know You  
Can You take, take, take this broken light of mine  
And lead me one step closer to new heights?

Now I believe I'll become who I can be  
And it's You closing the distance  
Now I can leave everything I've been holding on to  
'Cause it's You that makes me different

My wounds are healing now and I found my hope in You  
You can make, make, make this darkness shine so  
bright  
Lead me one step closer to new heights  
Yeah, I believe, I believe in You

Now I believe I'll become who I can be  
And it's you closing the distance  
Now I can leave everything I've been holding on to  
'Cause it's You that makes me different

Take my life, change my heart, make me different  
Take my fears and my hopes, make me all Yours  
Take my dreams, everything that I want to be

Now I believe I'll become who I can be  
Now I believe I'll become who I can be  
And it's You closing the distance  
Now I can leave everything I've been holding on to  
'Cause it's You that makes the difference  
And it's You that makes me different
