Close call, that's all and now I crawl
From my hiding place, I'll hide my face
While you stand by my side
While you stand by me

And did you know that what you said
It never meant a thing to me
'Cause I need something to see?
Close call, that's all and now I need you
It's all right, it's all right, it's all right

You stand by my side
So long my friend, today's your day
To be one in a million
Or just like the millions, my friend

So long, farewell
For you've chosen to save yourself
Save yourself again

And did you know that what you said
It never meant a thing to me
'Cause I need something to see?
Close call, that's all and now I need you
It's all right, it's all right, it's all right

You stand by my side
So long my friend, today's your day
To be one in a million
Or just like the millions, my friend

So long, farewell
For you've chosen to save yourself
Save yourself again

It's in you, it's in you
(Save me from myself)
It's in you
(Save me from myself)

Speak to me, speak to me
I'm so far away

Speak to me, speak to me
Aren't you proud of me?

Speak to me, speak to me
I'm so far away
Speak to me, speak to me
Aren't you proud of me?
(Don't try to save yourself)

So long my friend, today's your day
To be one in a million
Or just like the millions, my friend

So long, farewell
For you've chosen to save yourself
Save yourself

So long my friend, today's your day
To be one in a million
Or just like the millions, my friend

So long, farewell
For you've chosen, save yourself
Save yourself, save yourself
Save yourself, you can't
