(Wait)

Is easy going the best for us?

(Why)

Is faith becoming so comfortable?

I'm finding out

(Oh)

We're looking for answers

(Where?)

We're not asking questions

Let's move on

It's worth fighting for

Don't give up, give up, hold on

We're making progress

Reach out, reach out, reach up

And He will lead us on

Come on, come on

We're getting stronger now

The end is worth fighting for

(Oh)

There is hope in the aftermath

(Faith)

Will show what's next for us

And we'll move on it

Small steps will lead to bigger things

His voice brings new beginnings

We'll know that it's

It's worth fighting for

Don't give up, give up, hold on

We're making progress

Reach out, reach out, reach up

And He will lead us on

Come on, come on

We're getting stronger now

The end is worth fighting for

We have a chance to cause a reaction
It's beyond our human action
Oh God, we need You to move us now

Don't give up, give up, hold on
We're making progress
Reach out, reach out, reach up
And He will lead us on

Come on, come on
We're getting stronger now
'Cause we're fighting

Don't give up, give up, hold on
We're making progress
Reach out, reach out, reach up
And He will lead us on

Come on, come on
We're getting stronger now
The end is worth fighting for
(It's worth fighting for)
The end is worth fighting for
