Wiley

I can tell you dont wanna come around cause

[you were always]

trying to make yourself so busy and

[you were always]

playing up, is this really gonna work cause

[you were always]

trying to make him fancy you

[you were always]

going on like you love me up and

[you were always]

making him think you loved him up and

[you were always]

making me think twice about you cause

[you were always]

trying to make my head spin

[you were always]

saying to me you're sure about this and

[you were always]

sulking when you dont get your way and

[you were always]

trying to catch me out so much and

[you were always]

talking about your feelings were strong and

[you were always]

making me think you're gonna do wrong

[you were always]

trying to switch me off and on

[you were always]

trying to know what i am on

[you were always]

forgetting that what we are doing is wrong

[you were always]

now we're....

[smiling]

you see, now im...

[smiling]

[smiling]

but now we're...

[smiling] x 2

Tinche

trying to bring me down and  
[you were always]  
telling me to do this telling me to do that  
[you were always]  
trying to pretend you're busy for me  
[you were always]  
telling me you love me, telling me you want me  
[you were always]  
change your faults and blaming me  
[you were always]  
spying cause you had no trust  
[you were always]  
thats when girl's say tinche's a must  
[you were always]  
trying to present your move on..  
[you were always]  
trying to keep your eye on me  
[you were always]  
telling your friends you didn't care  
[you were always]  
phoning telling me you care  
[you were always]  
seeming to forget that i moved on  
[you were always]  
trying to tell me i need you  
[you were always]  
moaning, groaning, still not knowing  
[you were always]  
bredding me and begging me  
[you were always]  
pretending that it weren't over  
[you were always]

Dizzy

we was tingzing time ago  
[you were always]  
sweet at first but swiftly changed  
[you were always]  
acting odd and acting strange  
[you were always]  
trying to keep me in control  
[you were always]  
flirting like some cheap hoe  
[you were always]  
playing some annoying mental game  
[you were always]  
wrong and you try and pass the blame  
[you were always]  
acting like i wouldn't go  
[you were always]

(but hear the new diffence though)  
[smiling]  
but now ive moved along im more than strong  
[smiling]  
and on my way to major pay  
[smiling]  
cause im near the sky im rising high  
[smil..smiling]  
cause it feels so good  
[smiling]  
cause im moving quick, believe me chick  
[smiling]  
now you're out of the way i fight the day  
[smiling]  
you're a slag and you're swag  
[smiling]  
you wouldn't test me if you could

Wiley  
But now we're  
[smiling]  
you see, now im..  
[smiling]  
but now we're  
[smiling]  
you see now im..  
[smiling] [smiling]
