[Esoteric]

I assault the mic and rock it stompin out the  
microscopic  
Esoteric's like anthropic psychotics, semi-robotic  
When I drop it, I launch a pencil through your central  
ventricle  
Tear those tentacles, makin you a mental vegetable  
Acumenical, malpractice evil demi-Gods attack the  
baptist  
Severin their prefix  
My molecular, structure, raises the temperature  
All praise the emperor, tarantula, nebular inhabitant  
Esoteric's landed past extravagant  
Established in between Giza's stone age and the  
Vatican  
The Paladin, battlin crabs stabbin their abdomen  
Travellin through densities Devils witness the acumen

[Virtuoso]

Delay the ossification of vertebrae like hypocondro-  
genesis  
Melt his pelvis to the shape of a shellfish  
Hypophosphohic-hessially balanced  
Lethal short limb, dwarfism, draining crimson plasma  
from cadavers through a catheter my methods baffle  
the  
medical profession by assessin bone density  
without the use dual photon absorption geometry  
My camaraderie of biologically engineered MC's break  
you like pottery

[Chorus]

[E] Dichotomy you're God awful  
[V] in Virtuoso's arteries  
[E] The re-attached half  
[V] and have to rap symbiotically  
[E] Psyionically communicating  
[V] We're the first humans dating  
[E] back to the second  
[V] when the sun was first illuminating

[Chorus]

{"Makin heads swell 'til your eyes start to dilate;  
Here sucker you better not violate!" -> scratched 5X\*}  
{"Step to me, I'm knockin you senseless"}

[Esoteric]

The Elder God'll strike troglodyte,  
God Awful Rocks the mic and stomps the likes of softer  
types  
In archetypes of carbonite  
Smuggled on a charter flight, contented with the  
ministry  
Mastered on epiphany for Babylon ventriloquy  
Rap assassin, master craftman, Sebastian  
Blowin rappers up in tract compaction  
My faction, calls upon the Esoteradactyl  
Call me that, once you get your rap geared up for  
battle  
I travel, to Camelot, apply a hammer lock on Lancelot  
Mandelbrot sets, we spot the process  
The Loch Ness, monster, track taxidermist  
I pack my furnace with a wack rapper's epidermis  
Esoteric's dialogue's outlawed by demagogues  
The analog exposin the God's fraud  
Your squad, I violate their primate mindstates  
like fire drakes, breathing fire to annihilate  
and violate, your complex Lexicon  
I bring your death upon encephalons and teflon we  
place you on

[Virtuoso]

A medieval torture rack to contort your raps  
To speak your mental thought will get you caught and  
hung from rafters  
by your ligaments, suspended with your forehead  
dented  
Tormented, claim you represented get your frame  
demented  
Bloom like habiscus, consume the wind resistance like  
a discus  
Lobotomize platoons I sodomize them with their  
biscuits  
My syringes injure skull cavities  
Savagely removin human brains by pullin gravity  
to strange locations, I rearrange the Earth's rotation  
Placin, theories of Copernicus in furnaces  
Murderous rhymes find applied minds like shackles  
Explosively my shrapnel makes your skin holy like  
chapels  
Fracture faggots to fractals grow frail  
I inhale through blowholes like a whale

You rob and steal I guard it like a grail  
Impale plate mail, with eight nails  
Make a nickel cadium to whip craniums like geraniums

[Chorus]
