Gotta keep my head above water  
Gotta stay head-strong, keep rolling on  
No point getting caught in the hype is long  
Like I don't know right from wrong

So I gotta be real, nothing to prove  
I'm still big in the hood, I feel so in control  
I'm chill, no one ain't knocking off dill  
So I stay top on the bill

I'm the main event, the headliner  
Went from jungle DJ to rhymer  
Never thought I would be the big timer  
But I still par it like, yo, it's a minor

'Cause I still rep my ends, still check my friends  
Can I keep it up? I guess, it all depends  
If I can keep my mind right, don't get tempted  
By the limelight, I think I'll be alright

Temptation leads you like your naughty mate  
The one that used to get you in bother  
The one you can never bring yourself to hate

Can't avoid the temptation  
But I know, I gotta change my ways  
And keep my nose clean, gotta fix up  
Take a look at my life 'cause I ain't sixteen

And I ain't no boy, ain't no kid  
The world ain't flat and the picture's big  
Certain things that I gotta get rid  
And a whole lot more that I gotta get with

So I gotta stay and roam on my own  
Gotta move on, I can't stay at home  
'Cause I know what's there is all the same  
Crack, cocaine and ghetto fame

Cold hard cash and a bit of a name  
And I've see it all, so I need a change  
Lost too many brethrens to the game

And you could say temptation's to blame

Temptation leads you like your naughty mate  
The one that used to get you in bother  
The one you can never bring yourself to hate  
Temptation leads you like your naughty friends

We used to be tight, me and my naughty friends  
Caused pure madness in the ends, I mean day and  
night  
We robbed, we stole, we loved to fight  
Smoking, drinking, joyriding, drugs, thugs, not law-  
abiding

Reckless youngsters, no direction, no sign of  
correction  
But then I switched it up, changed my ways  
Got in the area like, "Oh my days"  
But not my naughty friends, they're not fazed  
Can't believe that this music pays

See no reason why we can't do  
All the things that we've always done  
Still in my heart I know that's just wrong  
But it's hard to fight the temptation, son

Temptation leads you like your naughty mate  
The one that used to get you in bother  
The one you can never bring yourself to hate  
Temptation leads you like your naughty friends
