Hello It's Pablo, your brother Pablo
Sorry for calling this late, but it
Suddenly hit me that I miss you so much
And you're to far away from me.
I never told you
How much I love you
And everybody needs a brother like you

So goodnight dear brother
Goodnight sweet brother
And thank you brother for helping me out goodbye

Hello It's Pablo,
Sorry for calling again
Do you remember when I dreamt about witches
Woke you up asking
If I could sleep in your bed
And you said there are plenty of space

So goodnight dear brother
Goodnight sweet brother
And take my hand if you dream about witches
goodnight

And my brother went to Stockholm
And I went crazy
I thought I could make it all by my self
But things have changed slowly how I'm in a mess
I wish you could bless me like you blessed me before

So goodnight dear brother
Goodnight sweet brother
And thank you brother for helping me out so
Goodnight dear brother
Goodnight sweet brother
Goodnight dear brother goodnight sweetheart
goodnight
