If it's the last thing I do, I'll make you mine
Darling, the first thing is you in my design
Just like the stars guard the moon above me
That's just how I'll guard our love, so love me, please,
love me

If it's the last thing I do, I'll take your hand
And though I won't say a word, you'll understand
I'll build a dream just for two and then I'll make it come
true
If it's the very last thing I do

If it's the last thing I do, I'll take your hand
And though I won't say a word, you'll understand
I'll build a dream just for two and then I'll make it come
true
If it's the very last thing I do
