Looks like a cold, cold winter
Plenty of ice and snow
But we'll keep the love light
In our hearts aglow

Looks like a long long winter
Baby, what do we care
As long as we have
This love of ours to share

It's gonna be cold outside
Gonna be warm inside
So we'll cuddle up
By a cozy fire, side by side

Looks like a cold, cold winter
Summer is far away
Until then I'll love you
More and more each day

(Looks like a cold, cold winter)
Plenty of ice and snow
(It's gonna be cold out there)
But we'll keep the love light
(Just we two, me and you)
In our hearts aglow

(Looks like a long, long winter)
But, baby, what do we care
(Don't wanna get lost out there)
As long as we have
(Just we two, me and you)
This love of ours to share

(Gonna be cold outside)
Oh, record breakin'
(Gonna be warm inside)
Temperature taking
So we'll cuddle up
By a cozy fire, side by side

Looks like a cold, cold winter
(Yes, the summer is far away, away)
But until then I'll love you
More and more each day

(Gonna be cold outside)
The birds are beat it
(Gonna be warm inside)
I love to heat it
So we'll cuddle up
By a cozy fire, side by side

Looks like a cold, cold winter
(Yes, the summer is far away, away)
But until then I'll love you
More and more each day

Gonna keep you warm
Until winter goes away
