Visit "[All We Need](#)" on MotoLyrics.com

No time to stand out there
This night is something to care
We try to find somewhere to go

Its all we need
Its all we need
Its all we need
Its all we need

Its all we need
Its all we need
Its all we need
Its all i need , baby

No time to stand out there
This night is something to care
We try to find somewhere to go
Too long the rhythm take
To come along
And get you awake
Going on and music gonna making go
Make him go

Its all we need
Its all we need
Its all we need
Its all i need , baby

Its all we need
Its all we need
Its all we need
Its all i need , baby

Too long the rhythm take
To come along
And get you awake
Going on and music gonna making go
Make him go
