I can't forget all the things you wanted from me
Let's just put it in the past, make new memories
I've been reborn and I want to be back in your life
Cause with you gone it's like I've been stabbed with a
knife

And I'll catch you when you fall
Back in love with me again
Even if I have to crawl
I'll get back on my feet again
Faster than the speed of light
It's like as if I'm floating through the air
You don't have to wait any longer
Cause I'm already there
You gave me wings so that I could fly
And your love has made my heart aware
And I can feel it getting stronger
Cause I'm already there!

You've taken off all my armour, now my heart's
exposed
You've got the key to unlock your love and let it go
I've got a one way ticket, there won't be no turning
round
And I can't wait to get my two feet on the ground

And I'll catch you when you fall
Back in love with me again
Even if I have to crawl
I'll get back on my feet again
Faster than the speed of light
It's like as if I'm floating through the air
You don't have to wait any longer
Cause I'm already there!
You gave me wings so that I could fly
And your love has made my heart aware
And I can feel it getting stronger
Cause I'm already there!

I'm already, already already there
I'm already, already already there

I'm already, already already there
I'm already, al- I'm already there

I'm already, already already there
I'm already, already already there
I'm already, already already there
I'm already there

Faster than the speed of light
It's like as if I'm floating through the air
You don't have to wait any longer
Cause I'm already there!
You gave me wings so that I could fly
And your love has made my heart aware
And I can feel it getting stronger
Cause I'm already there!
