We gonna pump up the rhythm
'Til we getting real loud
We never stop fighting
'Til them are down
We gonna pump up the rhythm and look around
We always feel and talk the truth in this sound
Politician got and found no fascination
Think about guns in all them nations
Power and money in their salvation
But I think and spread out vibrations

Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people

Oh ya ya, to the people [x4]

All them bad war maker and money taker
Got no vibrations and have to fake them
Power to the people, not now may be later
Only neglected, not respected, I'm afraid of you
You will never be afraid of a ganja smoker
Or fooling around with religious talker
Freedom and unity, peace should be taught more
Feeling release of all them bad soaker

Power to the people, to the people, to the people

Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people

Oh ya ya, to the people [x6]

To the people
Everybody
All over the world

Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people, oh
Fighting with the song
For the power to the people, people
[x2]

Oh ya ya, to the people [x4]
