Chorus:

1000 miles away from you
Iâ€™m dreaming of us â€™cause you make me feel blue
1000 miles away from you
We cherish our love after all we've been through

Chorus B:

Oh I love you - more then words can say
Oh I need you - every hour of the day
Oh I want you - guide me on my way
Oh I miss you - more then I can say

Intro & Midpart:

The rain is pouring down the pane
I miss you so
My promise is here for good
Here on my own, Iâ€™m longing for being with you

Vers 1:

I remember every hour, every day
How do you do, whatâ€™s your name
Was all that I could say
I remember all the butterflies I felt
I made you laugh, I made you smile
And then my heart just melted away and
Now I know

Bridge:

When I think of our past, I know our love will last
I know our love will last

Vers 2:

Time is running fast and now our love has grown
Youâ€™re still the one, I so adore
And this is what I know
Now Iâ€™m looking back at all those memories
I see the day, when we have met
â€™Cause then my life has changed, you set me
Set me free
