Chorus:

I have a dream, I have a vision
You may say it's an illusion
Together we are strong
Let's give peace a chance
Tell me what will be tomorrow
Will we find a road to follow
I still believe in love
Let's give peace a chance

Chorus B:

Now I feel like I'm stranded
But I'm not the only one
Light the fire and give peace a chance
It's a wonderful world
Let's see it, believe in it
For tomorrow, let's give peace a chance

Rap 1:

I tell you, now wake up or be swayed by my dream now
A world of hope and peace, I'm trying anyhow
Most of us only care about money making
And that's for real - the thought of it is aching
Facing everyone with an open heart
We better going to start before our worlds apart
No matter where you from - no matter who you are
No matter what you do - the pain has gone to far
There's a falling star, please achieve my dream
Peace for the world and try and grow your self-esteem
To resort to violence means hate and frustration
Coming back stronger than your own imagination
Power and money shouldn't be the temptation
But shouldn't be love our best motivation
I still can't believe this is true, right here, right now - I
haven't got a clue

Rap 2:

Whatever happens in your life you've got another
chance
To advance yourself, grow and give a better glance
Tolerance between religions and races
Let's talk about respect between different faces

We all are the same at the end of the day
Rich or poor we have to fade away
And if you're black or white - doesn't matter anyway
Hindu, Muslims, Christians, they all just pray
For freedom and a world of peace and harmony
Lord I'm so confused about this living human tragedy
Tell me what is wrong, - tell me what is right
Tell me why are people still suffering and fight
People hear me - it's time to wake up and love
Before it's too late let us all free the dove
I still can't believe this is true, right here, right now - I
haven't got a clue

Midpart:

Is this what life was meant to be
Sometimes we lose reality
But then I'm reaching for the stars
And I know, and I know
