Since thousands of years  
Colors and religions are fighting against each other  
But where ever you are who ever you are  
Give yourself a chance for peace on earth  
I'm back with the track I'm white not black  
But the colour doesn't matter so now step back  
Brown or black or white or red or what  
You now what time it is it's time to say enough  
Cause every nation's in a situation  
You know it's time for a combination  
See what they spray up on the wall  
Stop the war that's not your fault  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
You better listen to what I've got to say  
I got the mic in my hand and I am on my way  
It's not terminator not superman  
Not a bad story of the ku-klux-klan  
It's like a picture and it starts to shine  
It's bright in colours so open your mind  
Give yourself a chance take it in your hand  
Give yourself a chance talk to understand  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
There's a nightmare we're dreaming of

Cold violence and war  
What we are living for  
Is love we adore  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
I'm back with the track I'm white not black  
But the colour doesn't matter so now step back  
Brown or black or white or red or what  
You now what time it is it's time to say enough  
Cause every nation's in a situation

You know it's time for a combination  
See what they spray up on the wall  
Stop the war that's not your fault  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
There's a nightmare we're dreaming of  
Cold violence and war  
What we are living for  
Is love we adore  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
Give yourself a chance right now  
Give yourself a chance for peace on earth  
Since thousands of years  
Colors and religions are fighting against each other  
But where ever you are who ever you are  
Give yourself a chance for peace on earth
