Chorus:

I need your love love
Love, I need your love tonight
I need your love love
Love, I wanna hold you tight
I need your love love
Love, I'll do anything for you
Take my heart and I'll be yours
I want you back for good

Verse 1:

Cool down and listen what I have to say
Begging you to hear me, I need you every day
I've learned my lesson I know it for sure
You're all I ever want, you're all I ever need

Bridge:

'Cause you once took my love
And it's like that ever since
You've turned my senses apart
A lonely queen without a prince
I'm trying to forgive you recapture my heart
Now it's up to you, I want to feel you

Verse 2:

Another day is passing and pictures flash by
All I need is your love 'cause you make me fly
I got this feeling I just need a chance
To show you how I care, to show you what I feel

Midpart :

You've learned your lesson, now come back for good
So many things I've said you misunderstood
'Cause all that I feel girl, I feel it for you
You've got me wrapped around
