"It's A Wonderful World"

Visit "[It's A Wonderful World](#)" on MotoLyrics.com

It's a wonderful world where we belong to
There are so many things we can learn
It's a wonderful world and we will promise
We will take our chance

It's a wonderful world where we belong to
We have a heart full of dreams
It's a wonderful world and we will promise
We will take our chance

It's a wonderful
It's a wonderful
It's a wonderful world

Walk along the road, the view get's no clearer
Don't waste your time don't let nobody hear ya
Here is your harmony, here is your friend
A positive spirit that's holding your hand

Stop, step back don't let somebody play the game
Scream it out then you can take the pain
Open up your mind, free your soul
It's a wonderful world and we're taking control

It's a constant fight that will always last
It's a war between the present, the future and the past
Confusion goes on, do we know right from wrong
Live each day like the last ,then you're strong

The clock of your life is ticking slower and slower
If we give up our dreams we go lower and lower
Open up your mind ,free your soul
It's a wonderful world and we're taking control
