The star appeared up in the sky
It was the night of a new born child
The birth of a better world
Since this holy night
We are all celebrating Christmas
It's time for Christmas we're singing for the world
Let's live together in harmony
It's time for Christmas it's time to heal the world
Let's come together it's Christmas time
Christmas you will find your way home
Together with friends you will never walk alone
Christmas in all these wonderful places
Different colors and different races
Peace in the silent night
No more pain let's stop the fight
Heaven like a place on earth
It's Christmas time it's Jesus' birth
It's time for Christmas we're singing for the world
Let's live together in harmony
It's time for Christmas it's time to heal the world
Let's come together it's Christmas time
Freedom for the human race
To make the children's world a better place
Freedom for me and for you
Heal the world and make a wish come true
Peace it's our love supreme
For now and forever what a wonderful dream
Love makes the world go around
From the highest mountain to the deepest ground
It's time for Christmas we're singing for the world
Let's live together in harmony
It's time for Christmas it's time to heal the world
Let's come together it's Christmas time
It's time for Christmas we're singing for the world
Let's live together in harmony
It's time for Christmas it's time to heal the world
Let's come together it's Christmas time
It's time for Christmas we're singing for the world
Let's live together in harmony
It's time for Christmas it's time to heal the world
Let's come together it's Christmas time
