(Verse 1)

I can't control this feeling,  
something's happening inside me.  
Our senses come alive,  
the chemistry is building.  
It's something that we're feeling,  
there's nowhere you can hide.

(Chorus)

It's gonna' get...  
It's gonna' get...  
It's gonna' get louder.

We're gonna' get...  
We're gonna' get...  
We're gonna' get stronger.

We're gonna' feel...  
We're gonna' feel...  
We're gonna' feel better.

You can't tame this energy inside

I gotta reach...  
I gotta reach...  
I gotta reach higher.

I wan'na burn...  
I wan'na burn...  
I burn like a fire.

Gotta move...  
Gotta move...  
Gotta move faster.

You can't tame this energy inside

(Verse 2)

Perpetual emotion.  
It's just a ripple in the ocean.

A shadow in the night.  
Changes we're making for the better,  
we're going through together.  
There's nowhere you can hide.

(Repeat Chorus)

(Verse 3)

It's more than a feeling,  
We're building a dream that we've always had clear in  
our sights.  
Watch it ignite as we open our eye,  
it's the one way we know to survive.  
We're powerfully changing the world,  
We're reclaiming our unity,  
They can't divide.  
They push us around,  
but we're tearing it down,  
and we're having the time of our life.

Repeat (Chorus)

Faster  
Louder  
Stronger  
Better

Faster  
Louder  
Better

You can't tame this energy inside...
