"Party Delight"

Visit "[Party Delight](#)" on MotoLyrics.com

Chorus:

It's really getting hot tonight
We'll dance into the morning light
Get up stand up don't stop the party delight

Verse 1:

It's saturday, it's saturday night
We go to dance just to feel alright
Let's come together and stay up late
Release the pressure and celebrate
There's gonna be a party going on
You know the night has just begun
Let the music blow your mind
And leave your troubles all behind

Verse 2:

We feel the beat, you need to move on up
The heat is on, so give me all you got
Just come on down , down to funky town
This is the time and we felling fine , yeah
Everybody see, people jammin on
You know the night has just begun
Let the music blow your mind
And leave your troubles all behind
