Let me be your superstar  
Before you break my heart  
Let me be your superstar  
You're tearing me apart  
Let me be your superstar  
And make me lose control  
Let me be your superstar  
Cause now I want it all

Touch me, feel me - everywhere I lose control  
Take me, kiss me - every time with heart and soul  
Break me, kick me - you can knock me off my feet  
Fool me, hurt me - your kisses taste so bittersweet  
Be me, see me - treat me like a superstar  
Push me, change me - wanting you is so bizarre  
Read me, hear me, all my effort is not enough

Call me, date me - shoot me like a cannonball  
Try me, lay me - crash me up against the wall  
Love me, hate me - stronger than a shark attack  
Thrill me, cry me - hide your fear behind my back  
Find me, fear me - never leave me on my own  
Chase me, stop me - make me shiver to the bone  
Hug me, chill me, send my angels from up above

Come baby, come baby, love me, hate me  
Shoot me like a cannonball, try me, lay me  
Make me shiver to the bone don't stop me  
Come thrill me, just feel me so heal me, you'll see  
You know I want it all, how  
I want it right here, right now, now
