Tell me why, tell me why oh tell me why
I am hurt so deep inside don't make me cry
Tell me why, tell me why oh tell me why
Live in love with you was just a lie

Another night why do I believe
Life could be like before
You ran away said I have to leave
And then you walked out that door

Time will heal, I'm alive
Broken wings need to fly let me try
Time will heal, I will rise
And then I close my eyes

Another day I'm feeling alone
I don't know what to do
I can't believe our love has gone
You don't know what I've been through

Tell me why, tell me why
The day we met I've learned to fly
Tell me why, tell me why
To live with you was just a lie

I'm lonely, hope you feel the same pain too
You walked out that door, the next rendezvous
For you, I was the name of the game
Insane, I feel like the man in the rain,
The one to blame, the one without a name
Standing on the end of the road so ashamed
And naked, there's no way to your heart
I guess that's it, we're apart
