Oooh Yeah

She's got green eyes and she's 5'5
Long Brown hair all down her back
Cadillac Truck, So the hell what
What's so special about that

She used to model
She's done some acting
So she wayd a bick 05
And I guess that she's alright if pefections what you
like

CHORUS:

Ooooooooooh

An I'm not jealous
No am not

Ooooooooooh

I just want everythin she's got

Ooooooooooh

You look at her so amazed
I remember back when you used to look at me that way
Tell me what makes her so much better than me?
What makes her just everythin I can never be?
What makes her your every dream and fantasy?
Because I can remeber when it was me

And now you don't feel the same
I remember you would shiver every time I said your
name
You said nothing felt as good as when you gazed into
my eyes
Now you don't care I'm alive
How did we let the fire die?

CHORUS:

Ooooh

And I'm not jealous
No am not

Ooooh

I just want everything she's got

Ooooh

You look at her so amazed
I remember way back when you used to look at me that
way

What makes her so much better than me?
What makes her just everything I can never be?
What makes her your every dream and fantasy?
Because I can remember when it was me

That made me smile
Me that made you laugh
Me that made you happier than you had ever been
Ooh

Me
That was your world
Me
Your perfect girl

Nothin about me has changed
That's why am her wonderin...

What makes her so much better than me
What makes her just everythin I can never be
What makes her your every dream and fantasy
Because I can remember when it was me

What makes her so much better than me
What makes her just everythin I can never be
What makes her your every dream and fantasy
Because I can remember when ittt waass meeee
