Everytime I see you baby I get crazy dizzy playing like
I'm busy.
& I never stop to notice you around the friends the
crew,
I bet you never knew, the feelin that I always hide away
No long will I keep locked up so deep in me.

Gonna use what I got, to get what I want.
I'm not gonna stop till I break your heart.
(Dj Boonie In The Mix 2k7)

Well I used to sit up in my room waitin for the phone to
ring.
Wishin that it was you, my baby.
Driftin down the hallways just a prayin for my pager to
sing.
I didn't know what to do, I went crazy.
So I searched for a spell I could put you under.
& I waited and I wondered.
Heard a voice on the breeze of a distant thunder
Saying take him if you want him.
Girl you know what you gotta do.

Come on Come on
I'm gonna break your heart this time.
My baby, here I am.
I'm gonna make you see that your love will be mine.
Come on Come on.
I'm gonna break your heart this time.
Baby I have arrived.
& I'm right on time.
My time for breaking your heart.
My Baby.
My time for breaking your heart.

I know you don't consider the potential to be
Much more than friends.
If I left it to you,
My baby.
I intend to show you what a girl can do
When she plays to win.
So you gotta come through and get crazy.

So we danced for the stars we were wishin under.
& we waited and we hungered.
Heard a voice on the breeze of a distant thunder,
Saying show him what you've got.
You know the powers in you.

Come on Come on
I'm gonna break your heart this time.
My baby, here I am.
I'm gonna make you see that your love will be mine.
Come on Come on.
I'm gonna break your heart this time.
Baby I have arrived.
& I'm right on time.
My time for breaking your heart.
My Baby.
My time for breaking your heart.

Everytime I see you baby I get crazy dizzy playing like
I'm busy.
& I never stop to notice you around the friends the
crew,
I bet you never knew, the feelin that I always hide away
No long will I keep locked up so deep in me.

Gonna use what I got, to get what I want.
I'm not gonna stop till I break your heart.

My time for breaking your heart.
My Baby.
My time for breaking your heart.
Come on Come on.
