You can run and you can't begin  
In a place where you don't fit in  
Cuz, love will find away... yeah...  
When you're down, you can start again  
Turn around and you think you're in  
Cuz, love will find a place... yeah...

You got one heart you are following  
One dream keeps you wondering  
Love lights your way through the night...  
One wish keeps you trying  
Once you're silver lining  
Love light the way through the night...

You can fall a thousand times  
You can feel like you've lost your mind  
Love will find a way ohh... yeah... yeah...  
In a minute it can change your life  
In a moment it can make you right  
Love will find a place hey... yeah...

If you got one heart you are following  
One dream keeps you wondering  
Love lights your way through the night...  
One wish keeps you trying  
Once you're silver lining  
Love light the way through the night...

Everybody needs something to hold on to  
Everybody needs something to hold on to

One heart you are following

If you got one heart you are following  
One dream keeps you wondering  
Love lights your way through the night...  
One wish keeps you trying  
Once you're silver lining  
Love light the way through the night...

Once you're silver lining  
Love light the way through the night...

Love will find a way  
Love will find a way in you're heart...
