"Mis Hojas Secas"

You walk around, always screaming about
How you're trying to get your way
But you should just keep your fucking fat mouth shut
If you got nothing important to say
Because you
You got a lot to learn
All you do is bitch about the things in life that get you
down
You never care for nobody else
If you saw how your life looks to me
I think you'd be ashamed of yourself
Because you
You got a lot to learn
You live inside your fucked up world
Talking loud with nothing to say
You got a lot to learn about your life
Because you can't keep on living this way
Because you
You got a lot to learn
