CHORUS:

And if you feel the need

to make love to me in the night

and if you wanna make love till you see the morning  
light

it's the rhythm of my love- oh yeah

the rhythm of love

it's the rhythm of my love- oh yeah

the rhythm of love

(I've got the rhythm...)

There is so much we can do

for the love of me and you

and I will do anything

yes anything for you

hey- I know what you want

I know what you need

and I will do anything

to get your love

come close to me- oh baby...

CHORUS...

(The rhythm..)

(Yeah yeah yeah yeah..)

[We got the rhythm.]

[We got the rhythm.]

[We got, got the rhythm.]

I close my eyes and I think of you

imagining things we're about to do

and I will go anywhere

yes anywhere with you

hey- I know what you want

I know what you need

and I will do anything

to get your love

(Get your love...)

come close to me- oh baby...

CHORUS...
