Sick with It, six digits, big engine
Get lots of head like six midgets
It just the code I live by,
Represent the road I grew up by,
And I see the game like an umpire.
Muthafuck one time, and everything come by
I am the boss, I have a nigga tell you about the gunline
I'm in the hog sometime, I'm in the Porsche redline
I drive that muthafucka like I'm tryna beat the deadline.
Holla at the boy bitch, yes I'm the boy bitch
I'm fly and your boyfriend is an ostrich
How much you cost bitch?
See I will buy you and then sell you back like an auction.
Okay? I am affiliated with DJ Drama
And this Just Blaze track has just met Jeffery Doma
I am a bingo on the beat like Carson Palma
And the niggas couldn't see me with panorama.
(Haha) Niggas soft as a can of flowers
You soft as a can of tuna
You fucking with a piranha
The balling is no illusion
Paper tall as a tower
I'm paid hoe, I could change your life all in a hour.
I promise I see the city skyline from my shower
I'm feeling like a gun with a bag of gun powder
POW POW
I'm Higher than Mr. Childs
Fresh from the bottom of the ant pile.
WEEZY

[Chorus]

My grill is gangsta, my aim is money
The championship is beautiful but the game is ugly
They say feed the hungry, but these bitches is greedy
But I am awful gifted, I am simply strategic
It's come to my room, I make her feel like it's Egypt
And she leave out that room feeling like a paraplegic
My foot game is my capital feature
I stuff her ass up like a pair of new sneakers
Back to the subject at hand,

Baby I'm a wealthy ass young black man
Flow more rare than finding black sand
And, I just want some brain like a fucking cat scan
I just want some paper like a fucking trash can
And, life is a maze so hows it hanging back man?
I seem to amaze, as well as advance
I'm so far ahead I gotta save the last dance.

[Chorus]

Get it straight like pampers I enhance,
MOB, I'm all about my chips like Lance
I be with animals with animal tactics,
I swear I'm backed up like New York traffic
You dumb fucks, you're nothing but lunch ducks,
Big nuts hairs, swinging like nu-chucks
Holly Road I'm claiming it like insurance
I'm known to grind, nigga you're just a tourist,
Flowers for the dead, say hello to the florists
Fuck with me wrong bet I rush it like Borris
Like they tryna kick it but I ain't Chuck Norris
I kick it with a few and he rolling up a forest
Can't be compared, no I'm not a thesaurus
Can't be banned, I'm sorry Miss Delourous
Fuck Wendy Williams, that bitch look like a dude
Her body look chewed and her hair looks glued
But let me get back to my food
Eat the track up and leave the Mic Barbecued
Why in 30 lives would you ever war with I
I'm just getting high thinking about the Carter 5
My homies straight, my momma good and my
daughters fine
Everyday I pray and thank the great Lord of mine
Weezy baby, you're looking at greatness
Gangsta Grillz, no braces.
