

## Biohazard

### "Decay"

Visit "[Decay](#)" on [MotoLyrics.com](https://MotoLyrics.com)

we syphon earths blood  
and drain it into her seas  
all in the name of progress  
misguided opportunity  
this world we live in together  
gets dirtier everyday  
everything we make we throw out,  
recycle or wastes away

decay, falling into decay  
eachday, sacred world waste away

not another day goes by  
we destroy our home  
is this a sign of the times we're in  
or is this the fall of rome  
as we collapse, politicians lie  
get fat, get richer as they watch us die  
stand by, watch it from the sidelines, fuck no  
don't do it, fight them from the inside

decay, falling into decay  
eachday, sacred world waste away

collapsing system,  
declining moral value  
social break down,  
is there anything we can do?  
downtrodden masses struggle  
together in unity  
is this the end of our lives as we know  
burning hell for all eternity

decay, falling into decay  
eachday, sacred world waste away
