It's easy we scream for change  
When everyday we act the same  
How can a troubled government make us scapegoats?  
When we don't go out and vote

We're spewing, spouting, condemnation  
That the world we live in is a racist nation  
Since our opinions contradict our statements  
We show our prejudiced affiliations

Decline the civilization  
A crime against humanity  
In all our lies and our self pity  
It's time to stop our apathy

You say you're a victim in pain  
But you always prey on someone to blame  
You want to end the suffering for the hungry and the  
poor  
When they ask for help you slam the door

You want housing for the public good  
But not in your own neighborhood  
Industrial pollution makes you sick  
But you ain't got time for politics

Decline the civilization  
A crime against humanity  
In all our lies and our self pity  
It's time to stop our apathy

Decline the civilization  
A crime against humanity  
In all our lies and our self pity  
It's time to stop our apathy

You want the world to be a better place  
For your children, your people, your friends or race  
But selfish reasons drive us all, it's all for one and none  
for all  
The truth means nothing in a world full of lies  
Hypocrisy is man's demise

The truth means nothing in a world full of lies  
Hypocrisy is man's demise

You want the world to be a better place  
For your children, your people, your friends or race  
But selfish reasons drive us all, it's all for one and none  
for all  
Hypocrisy is man's demise
