(Vocal intro..)

Worship and take it and hold on and keep it forever  
My heart is a temple, you better be down on your knees  
It's precious and sacred, don't break it, please keep it  
together  
I'm trusting my instincts, I'm giving it to you with ease

(Vocal interlude)

Please don't make me want you  
Although it's much too late  
It's just a thing we can't escape  
Please don't make me need you  
Let the feeling burn  
You know we've reached the point of no return.....

(Music/Vocal interlude)

I'm flying, I'm drifting, there's nothing more real than  
this feelin'  
Love holds all colors and bends like the shape of my  
heart  
I'm shaking, I'm tripping, I'm scared what I might be  
revealing  
I'm fighting to focus and not tear this feeling apart

Please don't make me want you  
Although it's much too late  
It's just a thing we can't escape  
Please don't make me need you  
Let the feeling burn  
You know we've reached the point of no return...

Please don't make me want you  
Although it's much too late  
It's just a thing we can't escape  
Please don't make me need you  
Let the feeling burn  
You know we've reached the point of no return...
