I won't pretend tonight
That what I did was right
I know I broke your heart
I tore it all apart
Do you believe in destiny
and second chances

Chorus:
Stay tonight
Let the moment be forever
I don't wanna force your heart to
stay tonight
if we make it last together
everything is gonna be alright

I know the table's turned
I felt my fingers burn
And if you let me go
I'm just a fragile soul
Do you believe in destiny
and second chances

Chorus

Ahhhhh... oh yeah

Stay tonight (stay tonight)
Let the moment be forever (Let this moment be
forever)
I don't wanna force your heart to
stay tonight (stay tonight)
if we make it last together
everything is gonna be alright

Stay tonight
Stay
Forever
