I could have starved
and all I could eat where your honey words
And I could walk away and still be with you - still be with
you
I could tell the sun
To kiss your skin - kiss your skin
I could ease you with my troubles - ease your mind

Sweeter than beauty
Stronger than words
Harder than I gave
Lighter than air - I feel
Braver than leaving
Kinder than tears
Simpler that it could be
I'm great full that you are here
I feel - oh this love your love

I could right or could be happy
Right now I'm falling from your leaves
And the clock is a head off time
And I'm right behind - you if you want?
And you can tempt me
With your company
Day and night or in between I'm spelled by your name
Ringing in my ears

Sweeter than beauty
Stronger than words
Harder than I gave
Lighter than air - I feel
Braver than leaving
Kinder than tears
Simpler that it could be
I'm great full that you are here
I feel - oh this love your love
