You can get me right there where i want to be  
Feeling it all over deep inside of me  
Every time i think i'm close you take me closer  
Even now when you're away i feel you near

You've got a way of making sun shine out the rain  
You've got a way of turning ashes into flames  
I can't believe you're making darkness into light  
You're making all my contradictions turn out right

You're in my horizon everywhere i see  
And when i try to reach you you're right next to me  
Every time i think i'm close you take me closer  
Even now when you're away i feel you're near

You've got a way of making suns hine out the rain  
You've got a way of turning ashes into flames  
I can't believe you're making darkness into light  
Like you make all the famous cliches sound so right

Every time i think i'm close you take me closer  
Even now when you're away i feel you're near

You've got a way of making sun shine out the rain  
You've got a way of turning ashes into flames  
I can't believe you're making darkness into light  
You're making all my contradictions turn out right

You've got a way of making sun shine out the rain  
You've got a way of turning ashes into flames  
I can't believe you're making darkness into light  
Like you make all the famous cliches sound so right
