You can get me right there where i want to be
Feeling it all over deep inside of me
Every time i think i'm close you take me closer
Even now when you're away i feel you near

You've got a way of making sunshine of the rain
You've got a way of turning ashes into flames
I can't believe you're making darkness into light
You'r making all my contradictions turn out right

You're in my horizon everywhere i see
And when i try to reach you you're right next to me
Every time i think i'm close you take me closer
Even now when you're away i feel you're near

You've got a way of making sunshine of the rain
You've got a way of turning ashes into flames
I can't believe you're making darkness into light
Like you make all the famous cliches sound so right

Every time i think i'm close you take me closer
Even now when you're away i feel you're near

You've got a way of making sunshine of the rain
You've got a way of turning ashes into flames
I can't believe you're making darkness into light
You'r making all my contradictions turn out right

You've got a way of making sunshine of the rain
You've got a way of turning ashes into flames
I can't believe you're making darkness into light
Like you make all the famous cliches sound so right
