You can get me right there where I want to be
Feeling it all over deep inside of me
Every time I think I'm close you take me closer
Even now when you're away I feel you near

You've got a way of making sunshine of the rain
You've got a way of turning ashes into flames
I can't believe you're making darkness
into light
You're making all my contradictions turn out
right

You're in my horizon everywhere I see
And when I try to reach you, you're right next to
me
Every time I think I'm close you take me closer
Even now when you're away I feel
you're near

You've got a way of making sunshine of the rain
You've got away of turning ashes into flames
I can't believe you're making darkness
into light
Like you make all the famous clichs sound so right

Every time I think I'm close you take me closer
Even now when you're away I feel you near

You've got a way of making sunshine of the rain
You've got away of turning ashes into flames
I can't believe you're making darkness
into light
You're making all my contradictions turn out
right

You've got a way of making sunshine of the rain
You've got away of turning ashes into flames
I can't believe you're making darkness
into light
Like you make all the famous cliches sound so right
