Verse 1:

Well go 'head and leave

The call heard 'round the world from the wives of MC's

These cats is playin all that half a pound

A garment bag we snatch it down

Ain't got the state but we could prob'ly run a blacker  
town

Scenarios like this is tear jerkers

For the modern MC I ain't a blue collar worker

'Cuz this thing called rhymin' no different from coal  
minin'

We both on assignment to unearth the diamond

When you start climbin'

And then I start shinin'

You be strugglin' and strivin'

And they think you prime-timin'

Matain and keep silence make note and observation

This confrontation

This is the daily operation

A concentration  
Stay focused on my ?dissertation?  
'Bout to reach my destination with the balls of  
hesitation  
Baby make the preperation 'cuz this ain't no recreation  
This is Pro Ball!  
And we lettin you know y'all  
At the show y'all  
Doin' this for dough y'all  
Get the phone call  
And I'm ready to blow y'all  
'Bout to go y'all  
Been a pleasure to know y'all  
And I'm lettin' you know that...  
Chorus:  
Memories don't live like people do  
They always remember you  
Wether things are good or bad, it's just the memories  
Memories don't live like people do-o  
Baby don't forget me, I'm a travellin' man  
Movin through places, space and time  
Gotta lotta things i got to do  
G-d willin I'm comin back to you  
My baby boo  
I'm a travellin' man  
Movin through places, space and time(space and  
tiiiime)  
Gotta lotta things i got to do  
But in time I'm comin back to you  
Baby boo  
I'm leavin  
Verse 2:  
But God willin' I'll be back home  
To drop these heavy ass bags up off my backbone  
Around the world with a catalog of rap songs  
My baby girl is walkin, been away for that long  
But no you haven't well least that's how it seem to me  
My home town is like a whole different scenery  
The old timers on the stoop leaning leisurely  
The new jacks up in the bar smokin greenery  
Easily taken for granted when you up in it but it's sweet  
scented  
When you been down for a minute  
Move around city damage  
Break it down with the vintage  
The innovative  
Classical B-Boy image  
Collect the winners  
'Cuz that's the reason that we came here  
This thing is not a game here  
The fortune not the fame here

From New York to the ?Cakalaks?  
Cali in the Caddilacs  
Chicago know we innovate  
Infiltrate Virginia State  
DC make me say your name  
Philly know we penetrate  
Georgia make us generate  
Like suns as they create the pace  
They celebrate to my jams in foreign lands  
Even your mans in Japan know who I am  
Innocent, like everybody out in Nippon  
Say ichiban, may God have well where your getting  
from  
Phenomenom, 'scuse me that's a phone call  
it's the show y'all  
Tryin' to get this dough y'all  
'Bout to blow y'all  
Been a pleasure to know y'all  
And I'm lettin' you know that...  
Chorus:  
Memories don't live like people do  
They always remember you  
Wether things are good or bad, it's just the memories  
Memories don't live like people do-o  
Baby don't forget me, I'm a travellin' man  
Movin through places, space and time  
Gotta lotta things i got to do  
But in time I'm comin back to you  
My baby boo  
I'm a travellin' man  
Movin through places, space and time(space and  
tiiime)  
Gotta lotta things i got to do  
But G-d willin I'm comin back to you  
Back to you  
I'm leeeaaavvvinnn!
