Creature...

Creature...

You cannot run, you cannot hide  
Nothing can stop as it grows inside  
It takes over your mind as the day turns to night  
From dusk through the dawn, until the first ray of light  
You cannot explain it, it just takes control as darkness  
descends  
It feeds on your soul  
No longer afraid so no longer you fight  
Addicted to turning into a creature... of the night

You're never alone as you join with the tribe  
Together you meet, forever alive  
No matter your creed  
No matter your colour  
Here you unite side by side with each other  
The sounds then begin to fall from the sky  
You'll remember the reasons as we start to get high  
Time to rejoice, step into the light  
Forever... as a creature of the night

Creature of the night...  
Creature of the night...  
Creature of the night...
