"Break the Chains"

Visit "[Break the Chains](#)" on MotoLyrics.com

My approach to danger
Political sabotage for death in front of abortion clinics
The American pastime is murder at high schools
And pipe bombs at the Olympics

Hate crimes in federal buildings, terrorism abroad
Killing children, now they all Atheists
Unlawful Aryans with Matthew Hale
Want wars of race to make space

The confrontation is global
Then it's apartheid became the suicide bicoastal
So much drama and stress inside the world for real
Got God looking through his bifocals

I'm ready to die give me the word
I'm ready to shoot
I'm ready to kill my enemies and put 'em in a body bag
While I'm looking at the President and burning the flag

What!

Go against the grain, break the chains
Get out escape from the killing fields
With the power to form storms
I'm gonna hit 'em with rage and keep on

Go against the grain, break the chains
Get out escape from the killing fields
With the power to form storms
I'm gonna hit 'em with rage and keep on

You in a dominion of Holy War
Tension keep the Jews and Palestinians hard core
This is Biblical conspiracy
Written in religion to keep the world in division

Listen in the streets they collide, turn rivers to blood
And peace treaties to napalm theories
Governmental to presidential they lie
America still high, the killers they multiply

This is final defcon of the Omega
Denominations gang bang for their savior
The wicked supersede the lost system
With diplomatic immunity to murder your community

I'm ready to die, give me the word
I'm ready to shoot
I'm ready to kill my enemies and put 'em in a body bag
While I'm looking at the President and burning the flag

What!

Go against the grain, break the chains
Get out escape from the killing fields
With the power to form storms
I'm gonna hit 'em with rage and keep on

Go against the grain, break the chains
Get out escape from the killing fields
With the power to form storms
I'm gonna hit 'em with rage and keep on

Stand and deliver me
Strike my enemies and break the teeth of the wicked
Stand and deliver me
Strike my enemies and break the teeth of the wicked
Stand and deliver me
Strike my enemies and break the teeth of the wicked
Stand and deliver me from this c'mon, c'mon

Stand and deliver me
Strike my enemies and break the teeth of the wicked
Stand and deliver me
Strike my enemies and break the teeth of the wicked
Stand and deliver me
Strike my enemies and break the teeth of the wicked
Stand and deliver me from this c'mon, c'mon

Go against the grain, break the chains
Get out escape from the killing fields
With the power to form storms
I'm gonna hit 'em with rage and keep on

Go against the grain, break the chains
Get out escape from the killing fields
With the power to form storms
I'm gonna hit 'em with rage and keep on
