Bounce with me y'all
(Bounce with him y'all)

Now check it
Who get it live when the party dies down (dies down)
The mysterious man showing up in your town (your town)
Lyrics like lightning vocals like thunder
Neighbour hood success or the overnight wonder
Precise on mics but nice with the toe to toe
Aerobic flow shows out in kosovo
Between flows and chasing the hoes
I make the crowd get down like its supposed to go
Get down get round glad to see yall came
In the summertime bangin at the bball game
In the wintertime kicking rhymes huggin my block
With a L in one hand and a cup of hot chocolate
A man for all seasons damn I'm raw even
We set the bar high everybody start reaching (cause)

Start reaching yall

Mystery man
The mystery man who that

Who said I couldn't get it down like this
Some try to get it but aint got it like this
Put you in the mix get your body to twist
It's the mystery man the fans cant resist

6 oh mk T playin the corner
ice cold colt 45 not corona
Get down see me on the prow! now I'm gonna
Holla at this fine young jaw! named sharona
See moral stalk I walk right up on her
And make her heart race like the doc daytona
Tired of the neighborhood guys hey hold up
How she get that good loving feeling when I show her
Down and ride wit me don't forget me when you blow
up
How you gonna walk away from this here slow up

The head games is over ma I'm for real
You aint oprah and I'm not dr phil
Despite your size and them serious thighs
The long eyelashes and mysterious eyes
It'll pay to stay away from mysterious guys
They get the girls on the floor and keep the party alive
Cause yo

Now who said we couldn't get it down like this
Some try to get it but ain't got it like this
Put you in the mix get your body to twist
It's the mystery man yeah the fans cant resist

Who said we couldn't get it down like this
Some try to get it but ain't got it like this
Put you in the mix get your body to twist
It's the mystery man the fans can't resist

Now if I wanted I could pump it in every club this week
But I pass cause it only adds to my mystique
If you think that I'm weak then catch me out in the
street
It ain't nothin to show me homey we got this heat
That nigga ball that got all y'all waiting
To get off the ball and get the bar room shakin
Okay now put the party under reflex
If they like it in the hood let them bump it in the ??
Mystery man never take my mask off
But when it comes to the raps I get at y'all
Non stop flow that might flirt the dance hall
Peace I'm out p easy I get at y'all

Come on
Yeah
Get you happy y'all
Kenwood y'all
Mystery man
Mystery man
Mystery man
The mystery man
Mystery man
The mystery man
