When everything is settled down
We can talk
But for now
Rock wit u
Got so much to say without a sound
The way we getting down
Rock wit u

Managed to find some1 so fine
Up in here I feel im gonna lose my mind
Gonna spend the evening with my crew
Had no idea I would run into the likes of you
The dance floor is so ti-tight
Somewhat like the way my hands move on your thighs
tonight
Oh you wanna turn a thing around
Girl I like the way that sounds
Baby later on

After everything is settled down
We can talk
But for now
Jus wanna Rock wit u
When im on the floor
Cause of what you say without a sound
Everything is down
Wanna rock wit u

Days like a kid by the things that you did
Specially when the DJ was playing the best of it
Never want this evening to end
But if it does I wanna know can it start again
(Don't even know your head)
Just with your eyes alone makes me want to get out of
the game
The towel is about to be thrown
Hopefully girl
Later on

After everything is settled down
We can talk

But for now
I wanna Rock wit u
When im on the floor
Cause of what you say without a sound
Everything is down
Rock wit u

Maybe later on

After everything is settled down
We can talk
But for now
Jus wanna Rock wit u
When I'm on the floor
Cause of what you say without a sound
We be getting down
Wanna rock wit u

Feels so good why not let it ride
Time will tell if we should be closer
Later on or just for the night
On the floor let the beats take us over
Love the way from your left to the right
Here to go girl my heart wants to hold you girl
Like my hands that's locked on your thighs
Feels so good don't want to let go of you
Don't want to let go of ya
Let go of ya
Don't want to let go of ya
Don't want to let go of ya
Baby lets go

After everything is settled down
We can talk
But for now
Jus wanna Rock wit u
When I'm on the floor
Cause of what you say without a sound
We be getting down
Wanna rock wit u

After everything is settled down
We can talk
But for now
Rock wit u
When I'm on the floor
Cause of what you say without a sound
We be getting down
Rock wit u
