You don't want to get me started ho

You don't want to get me started ho

Ace Hood

We the best, YMCMB

My nigga fuck what you say, my niggas all for the cake

Was on the block every night, was on the block every
day

I do this shit for my fam, you do this shit for the fame

I kept it real from the joint and that's just how I remain

Don't get me started, don't get me started

My nigga, my nigga don't get me started, don't get me
started

My niggas go real as they go so hard, so dumb
retarded

Cause a nigga wanna think it's sweet then try me

Don't get me started, don't get me started

[Verse 1: Ace Hood]

Ok now clique full of niggas with tempers

Clique full of niggas and killas

When they cut me I don't pay them

With the two them nigga eyes remember

I'm the same lil nigga from the block ho

And I drive still walk with the Glock on
I'm about that cream, guaplage on
Don't get me started up ho
I come to whip in the Phantom
Y'all niggas really can't stand it
Them hoes really be jocking
Diamonds that got them watching
Say Ace ain't getting' no money
Pussy, I beg your pardon
You don't wanna get me started
You don't wanna see how I'm ballin'
Ok ok, what it look like?
Well that good thing got and it's good night
With a bad bitch, she's so thick
She rolling, I know this
And her neck gon' froze, better know that
Act up, I smell like a Kodak
And these niggas these niggas
These niggas these niggas
These niggas these niggas won't hold back
My nigga fuck what you say, my niggas all for the cake
Was on the block every night, was on the block every
day
I do this shit for my fam, you do this shit for the fame
I kept it real from the joint and that's just how I remain
Don't get me started, don't get me started

My nigga, my nigga don't get me started, don't get me started

My niggas go real as they go so hard, so dumb retarded

Cause a nigga wanna think it's sweet then try me

Don't get me started, don't get me started

Ok them pussy niggas be hating

Focus on what I'm making

Came through in tha Phantom

Them pussy niggas can't take it

Spit big bread on my chain

Still on stroke with your main

I'm rich nigga like yea nigga

They hoping I stay the same

They say I changed when I got fame

Bitch niggas, they complain

Flat black in that 2 door

Nigga must think he Bruce Wayne

I'm like damn hood what it be like?

Hold 'em down as your knee lights

New bitch like every day

Swear to God you won't see her twice

That purple that got me leaning

They don't wanna get me started

Come on this hook, no phonics

Introduce this shit and go retarded

Chopper in the trunk in case your mood swing

Extended clips that's standing tall, two chain

My nigga fuck what you say, my niggas all for the cake

Was on the block every night, was on the block every
day

I do this shit for my fam, you do this shit for the fame

I kept it real from the joint and that's just how I remain

Don't get me started, don't get me started

My nigga, my nigga don't get me started, don't get me
started

My niggas go real as they go so hard, so dumb
retarded

Cause a nigga wanna think it's sweet then try me

Don't get me started, don't get me started
