I mean the fur top off, look like I'm worried homie

Better send them now, got bout a mill on me

You rob me; I kill you, now that's a deal homie

Carbon one, five

Old black bitch with me, that's that forty five

Been real, never snitched nigga my whole life

Heard a nigga whacking

He should have been testified

[Verse 3: Rick Ross]

I'm hotter than a Kawasaki in the projects

Burning more than rubber, money ain't the object

I'm number 1, it hurt they feelings in the process

Cop a bird, me and? in progress

I'm buying cars like I'm in a contest

Say my name, rappers looking like a bomb threat

I'm a winner, these beginners talking nonsense

Brain from your ? till she render me unconscious

I'm so conscious ? they in my closet

My show account can take another deposit
Ladies heartthrob labelled me the odd ball
3.5 cause I'm known to start small

[Chorus: Schife]

If you from the streets like me, put your hands up!
D Boys on my tease, put your hands up!
Independent bad bitches, put your hands up!
If you know this how you living, put your hands up!

Where they at?

Put em up!

(X4)

If you know this how you living, put your hands up!

Put em up!

Where they at?

Put em up!

[Outro: DJ Khaled]

This the biggest street anthem in the hood right now

I got the streets on fire with this one
