Verse 1

I have no choice but to speak life - at this table - bring it
live
Cuz I'm able and called to switch your lies
And I must multiply light to even the score
Poor my heart out for the lost and mourn all torn
metaphores
And restore this land here before us - architects to
build
And fill the void left to just rot away so wordplay
refines-
With a finishing touch to shine
Ten times purified in the fire of life of constant change
I got a gang of words to serve any blank page
A messenger on a hidden path for slaves upon the clock
Strikes midnight - transform - mid flight.
Takin' my stance as I reach my goal and flow melodies
Of truth in verbal codes -
Makin' my way from sullen caves so my days
Illuminate my soul about to raise.

Chorus:

All I gotta do is follow that voice inside
A choice made with no compromise
All the way live every line focused on service
Nouns and verbs hit - all for a purpose

Before I even begin' to think - on the content I wanna
send out
I bind all negative feelings
Reelin' inside of me that I let society plant
A harvest of lies sewn to deceive my camp
They wanna - take me down so keep fallin' when I wake
Make no mistake - I felt the fire of lust - in time and
space
No broken - spoken to outlast these fools that
Be speakin' on loud blasphemy
And as for me - drastically - measures are drawn
To secure that blessin' hidden in mic cords
I explore the other side first - works of men

Have no chance to contend with this verse
A champion on collision courses - of course it
Was never in me to forfeit
Until I heard the Lord spit - some wisdom
I was one victim wrong tree - wrong fruit - but I still
picked'em
