i was wondering if you got a couple  
seconds to spare with me  
if so accompany me like a grizzly  
you know bare with me  
by the grace of God I spit metaphors  
and things with true power  
not for the lord of the rings the 2 towers  
not for the almighty dollar or rings  
around my finger

not for the ring around the collar  
that seems to linger on the shirt  
of the average rock singer.  
not for the ringling brothers or the  
rings of Saturn  
the only thing that could bring this  
brother to bring this pattern  
was a chance for me to get  
down with dj maj

this new mix tape is hot just  
like a space heater  
so it's my pleasure to rock  
upon the ringleader  
i appreciate it cause you didn't  
have to give me a thing  
but if you like how this sounds  
you can give me a ring peace
